Where Nature
Nurtures Life

Artist's Impression

“ With Botânica Hills, we set out to create a living landscape — not just a township. Inspired by Malaysia’s natural beauty, we embraced the land’s hilly terrain, weaving in green spaces and thoughtful streetscapes to foster a sustainable, balanced lifestyle. ”

Botânica Hills is designed with a strong focus on nature, incorporating green spaces that coexist beautifully with nature. With lush pocket parks, eco-friendly streetscapes, and community spaces, the township nurtures a sustainable environment while enhancing everyday living. Built on a naturally elevated terrain and nestled beside the verdant Taman Eko Rimba Templer forest, Botânica Hills offers easy access via Rawang Bypass—connecting residents to urban conveniences without compromising on its deep-rooted harmony with nature.

Hopea Subalata

Nestled in the heart of Templer's lush countryside, Botanica Hills stands beside one of nature's rarest wonders – the Hopea Subalata.
